THE WEIGHT OF THE WORLD: NOW EASIER TO BEAR.

Take on the world.

For those with global ambitions, these next-generation ultraportables pack long battery life and more potent performance into a sleek, exceptionally lightweight design. Plus, you can connect in more places as you travel. Select models feature WWAN technology, which enables you to connect wirelessly to the Internet from within the participating providers' coverage areas, making your ThinkPad a portable hot spot.³ And although we can't do much about the tight fit in business class or bumpy cab rides, we do make ultraportable computing comfortable. Only ThinkPad ultraportables boast the legendary, full-size⁴ ThinkPad keyboard with the TrackPoint® pointing device and ThinkLight® keyboard light. ThinkPad X60 and X60s notebooks are products of Lenovo, a global company uniting Lenovo and the former IBM PC Division.
